

HIET

HINDUSTAN INSTITUTE OF
ENGINEERING TECHNOLOGY

Admission Open

HIET CENTRE OF EXCELLENCE IN AUTOMOTIVE TRAINING

About the Institute

HIET Polytechnic College at Chennai is a premium institute since 1966 established by the Founder Chairman Dr.KCG Verghese who was a visionary and architect of this institutional paradigm. The institution recently celebrated its 52nd year with a pledge to provide quality and excellence in technical education. At HIET, we create an academic environment to ensure tuning of "Dreams into Reality" for the students with creation, dissemination and application of knowledge to mould the future professionals. The institution provides the best teaching faculty, state of the art workshops and training centre.

MOU Partners

Das Auto.

Driving India into the Future

Ministry of MSME, Govt. of India

OBJECTIVES:

- *To bridge the gap between industry and institution on expected skill level.
- *Training on real time systems in automotive which helps the students to meet the auto industry expectations.
- *To prepare students for industry oriented learning through German automotive systems training programme.
- *To enhance the competency level of students so that they can bring new development projects for the automotive industry.

ADVANTAGES:

- *Overview of engine & gear box fundamentals, design and construction.
- *Skill development of students is a part of their academics which will help them to fulfil the current industrial needs
- *Motivate students to work on real time projects with the industry which increase the job opportunities
- *Also once completing this skill training programme we will give assurance for placement
