ASSOCHAM AWARD

Mrs. Anita Gupta, Regional Manager of Hindustan Group of Institution has received the award on behalf of HIET Aviation College by ASSOCHAM along with the Ministry of Civil Aviation, Government of India had organized the 9th ASSOCHAM International Conference cum Awards on Civil Aviation & Tourism on Thursday, 23rd June, 2016, New Delhi.

From the Director and CEO Desk
Greetings!

Dear Students, Congratulations on joining the HIET family. On behalf of the Institute, I welcome you to all here in our institute, a place where we celebrate youth and excellence and attempt to transform young person's into adults with a sense of social responsibility, human values and concern for environment. We not only strive to train the students to become excellent engineers, technologists, thinkers and leaders of the society, but also help them mould themselves into better human beings. To start with, a three year diploma level engineering programme is offered in five branches like Automobile, Mechanical, Electrical and Electronics, Electronics and Communication and Computer Science Engineering, Towards the 50th years of our history in producing quality engineers, HIET has a rich Alumni base that has significantly contributed in the nation building process. The Alumni of the Institute have done exceedingly well in all spheres of life at both national and international levels and brought name and fame for themselves as well as to their institute. The Institute takes pride in their achievements. Apart from the academic activities, co-curricular activities, sports, adventure, cultural and social- service activities, form an important parts of the life of the students. This importance is well indicated in the spread of facilities at the HIET campus. There is a full-fledged and state of the art laboratory in HIET campus. We hope that you would use this opportunity to realize your full potential and bring out the best in you. We are sure that the excellent academic environment and the opportunity to participate in co-curricular activities will also help you in developing your personality and in your all-round development. I believe that your education in HIET will be a fulfilling experience. There would be, of course times when you might feel lonely and stressed, especially during the initial phase of your stay here. During these times, I will strongly suggest that you should not hesitate in seeking help from Management, Principal, HOD's and Faculty members also. We will make a genuine attempt in assisting you during the times of your trials and tribulations. You can approach this at any time during your stay at the HIET campus to address any of your concerns regarding either academic matters or life in the campus. I sincerely hope that your academic pursuit in HIET will be fruitful and enjoyable in every aspect and the experiences you gain here and the moments you spend here will be cherished by you in all your life.

Dr. Anand Jacob Verghese, Director & CEO

From the Principal's Desk

It gives me immense pleasure to welcome you to the creative world of HIET which has very eco-friendly campus and is equipped with state-of-art infrastructure. We have well equipped labs, workshops and libraries to help students in attaining highest standards in academics, research and professional skills.

While writing the Principal's message for this issues of the letter of HIET Padappai, I demanded only half space of the first issue of the newsletter because “Actions speak louder and clearers than words”. Half the remaining space can be used to showcase our actions. Though, HIET, Padappai has reached the destination of technical education, our strides are faster than other institutions. Thanks to our dynamic Director and CEO and his efforts to lift up our college immensely and to meet the needs of our goals. I also thank Chair Person, Directors and other officials of the HIET and of course, sincere and tireless effort from our college staff.

The HIET Padappai campus is always abuzz with a plethora of activities and has become a dynamic venue where brilliant minds from all over the world converge and share their vast reserves of knowledge and skills. It gives me immense pride to state that as a result of the collective effort of the faculty, students and staff over the past few years HIET Padappai today has achieved a top rank among the technical institutions of the country. I am hopeful of its acquiring greater heights in the years to come.

The various conferences, training programs and workshops in this college focused on such relevant areas as demand for technical education and experts from reputed institutes and organization in local authorities delivered speech on wide-ranging topics and brought fresh insights into various fields of learning.

Many constructive efforts have been taken to improve our DOTE results. Though the campus placements are taking efforts to groom the students to serve the society are progressing. We still believe in Roberts Frost's lines from the poem

“Woods are lovely dark and deep
But I have promises to keep
And miles go before I sleep
And miles go before I sleep”

I wish you all once again to choose our institute.

Prof. K. Sundararajan, Principal

From the Editor-in-Chief Desk

Once more, it is with immense pleasure that I was given the opportunity work on this edition of the college news letter. As we all know, a news letter is a mirrors a college its vision and mission. It also highlights events, activities and academic prowess and achievements.

In this edition, I have tried to capture past & present year excitement and activities. I do hope that the news letter encourages many more including students to use it as a platform to express their creativity. I strongly hope that this edition makes for an interesting to read.

My sincere and obedient thanks are to Dr. Anand Jacob Verghese, Director and CEO for his valuable guidance which enabling me to bring out this issue in time without any hurdles. Please feel free to offer any suggestion for improvement.

Dr. K. Nazeer Badhusha, Editor-in-Chief

From the Editor's Desk

The world is moving very fast and new technologies are coming up every week. We need to be proactive and enthusiastic in learning about these cutting edge tools and research. Buzz words like Big Data are slowly becoming pervasive and are the new revolution.

With the massive, near exponential increases in the amount of data to be processed, we need to completely change our traditional 'sequential instruction execution' way of thinking. A solution could be in the form of their new ideas. We need to change the paradigm from sequential to parallel. Parallel includes multi core as well as new visions. When we see a sequential algorithm, we need to think, can it be parallelized? And if so, in what way? 'Parallel' is truly the future and we needed to stay abreast of it.

The most important aim of students should be to absorb as much of these new technologies as they can. They must explore, invent and innovate. There is a huge scope to create something new, to disrupt existing notions, and who will do it if not the students? They are our future.

I believe that with students from HIET, the future does look bright.

Mr.Upanga Ujjal Kalita, III MECH
Editor – Student Chapter

48th Annual Day Celebration

48th College day celebration was held on 5th March 2016. Prof. Dr. Elayaperumal, Director, Student Affairs, Anna University was the chief guest and Mr. R.
