From Director and CEO Desk

Dear Students,

"We cannot always build the future for our youth, but we can build our youth for the future."

-Franklin D. Roosevelt

These words by Franklin D. Roosevelt perfectly describe our aim at Hindustan Group of Institutions. Beyond providing a sound education, we wish to provide our students a holistic learning experience for life. Our aim is to teach students to LEARN, not just to STUDY. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be moulded.

Dear students, "You are the nation-builders. You are the movers of technology. You are the agents of change." It is our fervent hope that the years that you spend in Hindustan Group of Institutions would enable you to equip with the leadership and managerial qualities and skills. The knowledge that you will gain, the fine qualities that you will imbibe and the technical skills that you will learn to apply will be your major contribution to your parents, to society, and to the nation.

We invest our trust on you. You are our safe source and we bank all our efforts on you. We create not the future instead, we craft you for the future. There are strong challenges to great efforts but, always remember, great effort bear the sweetest fruits of success. We want you to taste the fruit of success once and for the rest of your life and you will never rest.

"You don't have to be great to start, but you have to start to be great."

Best Wishes!!!

Dr. Anand Jacob Verghese, Director & CEO

From Principal's Desk

Dear Students,

I'm glad to signify that with commencement of this year 2019, The Hindustan Group of Institutions have completed 52 grand years of its establishment.

HIET is one among the Hindustan Group of Institutions that has as an outcome of continuous academic excellence and it is consistently producing top rankers in different branches of engineering. Faculty is actively involved in both teaching and skill development. HIET has number of very high-end analytical, computational and experimental facilities at the disposal of students. As we are in the 52nd year, we have inclined our focus towards Engineering and Technological field. We are going to concentrate more upon the engineering and technological activities and use for the students and social welfare.

The teaching program also gives emphasis on practical approach through industry-institute interaction. HGI organizes various Symposia, Workshops and Conferences etc. HIET have always been conducting cultural and

Inter School events, every year. HIET has more number of participants in Sports as well as in Cultural Activities participating in the events and around Chennai. Students at HIET also actively work for different Technical nurture. Students are also involved in Social activities in the college under National Service Scheme, who arranges Blood donation Camp every year. Students are also involved in various committee, which has been gives satisfaction of the students. They have organized events like Science Expo 2019 and Dr. KCG Verghese Inter School Competitions which received a huge response.

I am confident that the HIET is in a position to deliver the best theoretical and practical training to the students and offer the best talent to the employers.

I wish all the best to the aspiring students, parents, employers and all other stake-holders in achieving their goals.

Prof. K. Sundararajan

Principal, HIET Polytechnic College

From the Chief Instructor's Desk

The consequences of globalization have created a tremendous boom in the country and due to the Open Sky Policy there are a lot of job opportunities in the Aviation Industry. Aircraft Maintenance Engineering is one of the demanding and challenging professions for young, bright talents, who are willing to work hard to make it bigger. But to achieve the goal, a team work is most essential. The team consists of the following members: The Management, Faculty and last but the most important are Students. If all these three participants play their role efficiently, honestly and with dedication, favorable results can be achieved.

First comes the Management, whose primary and appropriate function is to provide proper infrastructure. The team members comprise the Faculty Members, who have to work hard and in an intelligent way, to give all the required knowledge to the students, to bring them upto the required standard to get flying success in the examinations. Role of the students is to be regular, hard working, sincere and dedicated.

They are bound to get success and make their career bright. Our primary aim is to train, mould and create world-class, dedicated and diligent Aircraft Maintenance Engineers to face the competitive world of Aviation. So the bottom-line is that: "There is no short cut to success". We are here to cultivate the inner potential of the students, so that they can acquire the technical knowledge along with the ethical values.

With these warm wishes, I heartily welcome you to conquer the aviation field and I promise that you will enjoy the precise quality training at HIET – Aviation College, Chennai.

Mr. Nayan Kumar Mishra
Chief Instructor / Training Manager
Aviation College

Message from Editor-in-Chief,

“First and foremost duty as a chief editor to give special thanks to our beloved Director and CEO, Hindustan Group of Institutions who has given the permission to make this Newsletter without any hurdles.

I being the chief editor, made a promise to the college that through my determination, perseverance and hard work, would undertake any task entrusted to me by the authorities and fulfill it in the best possible way.

Coming to the college magazine, I expect full cooperation from my fellow students and peers. New innovative ideas and new thoughts are always welcome by the board. We look forward to making this newsletter a vehicle for students to express their innermost thoughts. I hope this Newsletter goes on to become the “lingua franca” of our college.

Hebert Spencer said-

“The great aim of education is not knowledge, but action.”

And this is what we preach.

Dr. K. Nazeer Badhusha, Editor-in-Chief

Events at HIET

Science Expo 2019

Gala Event was celebrated at HIET Polytechnic and Aviation College during January which includes the annual Science Expo and Auto Expo 2019. It is an event wherein the students get the opportunities to show their talents in various fun and skill based competitive events.

An exhibit of live projects, replica of structures depicting famous buildings, bridges and utilities of technical marvel around the world, useful functional designs and collection of art works of various forms is done in open area erected in the large campus ground. The exhibition drew huge crowd of visitors from various school children from nearby localities. The most popular event of the science-expo is staged in the open field, wherein the cars and motor bikes stunt are designed by HIET, which was attracted by the school children.
