From Director and CEO Desk

Greetings!

Completed 50 years of service in educational sector, the Founder Chairman of HIET Dr. KCG Verghese embarked on a journey to educate and nurture the finest engineers. The students passing out of our portals have distinguished themselves as industrialists, entrepreneurs, innovators, educationists, heads of prestigious organizations, practicing engineers; and even as sports persons and bureaucrats of both National and International level. It is a matter of pride that HIET continues to be the 'institute of choice' for students from all over India when students today have vast options in selecting an engineering education. HIET, which has become a brand name, is one of the top self financing diploma colleges in Chennai.

The HIET campus is always abuzz with a plethora of bustles and has turned into a dynamic and self motivated venue where brilliant and gleaming minds from all over the capital city converge and contribute to their vast and enormous hold back of proficiency and knowledge.

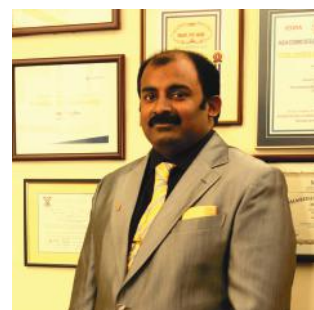

Since it started in the year 1966, HIET is promoting excellence in education through highly qualified faculty members and modern infrastructure. It is making all out efforts to build-in curriculum the capacity to innovate and ability to solve the problems creatively besides enabling every student to develop skills like critical thinking, communication and collaboration which are in the current context far more important than academic knowledge.

HIET's journey to excellence, with the main objective of continuous improvements of administrative and academic competence, is envisioned through three major pillars: intellectual infrastructure, courses/services offerings and institution building. I am hopeful of its acquiring greater heights and altitude in the years to come.

Last but not least, It gives me immense pleasure to pen a few words as prologue to our in-house news letter 'HIETalk' exclusively meant for churning out the latent writing talent which bears immense potentiality of sharpening your communication skill as part of your over all personality development. I congratulate all the editorial board for bringing out such a beautiful newsletter.

I, on behalf of HIET family, welcome the new batch of students who have joined this prestigious temple of learning!

I wish you and your family a Merry but safe Christmas and New Year 2017. I hope we will all return rejuvenated and even more determined to take this institute to new heights.

Dr. Anand Jacob Verghese, Director & CEO

It gives me immense pleasure in welcoming you all to the self - financed diploma level engineering institute at Chennai. It is an institute where discipline and punctuality with conducive environment will provide quality technical education development in frontier areas of engineering and technology. We, the faculty, staff and administration at HIET institute will work for producing technologically superior and ethically strong engineers for the country and the world with a purpose to serve the society & mankind. With strong team work we would achieve technological excellence in a highly competitive environment around us.

Here at HIET Institute, we offer following DOTE and AICTE approved regular Engineering Courses as Mechanical Engineering, Automobile Engineering, Civil Engineering, Computer Science and Engineering, Electrical and Electronics Engineering and Electronics and Communication Engineering courses too.

Apart from these regular courses, HIET facilitates the students as well as the faculty to keep pace with the latest technologies pertaining to their chosen field of studies. We have offered plenty of value added programmes where in the students are getting trained well. The students have the option to choose the courses according to their desires and inclinations. From the expertise our students gain knowledge through the value added programmes, which will enable them to face the formidable challenges of the future. We provide training and guidance to the students on the various aspects of building a career and to assist them in exploring new opportunities. The following are the valued added courses as Motor Cycle Repair, Advanced Diesel Engine Service, Robotics Training, Operation and Programme of CNC Machine (Turning Milling), Advanced Welding in collaboration with Indian Institute of Welding, Kolkata, VG-TAP in collaboration with Volkswagen, Chennai and 3D printing technology.

It is very delight to say that our institute has made MOU between DAIMLER India for providing training to the employees of the company as well as our students too. We have made tremendous efforts put towards the students and achieved a high pass performance in the Government Examination held at our institute for the last year.

We have high class infrastructure with well equipped Laboratories, Class Rooms, Library, Computer Centre, Cafeteria, Sports, Separate hostels for boys and girls, transportation facilities, medical help on campus and a sprawling lawn. We are proud of strong team of meticulously trained, dedicated and committed faculty and staff and most advanced teaching aids. As we strive for excellence in what we do, the Institute is constantly making endeavours to scale new heights by developing synergy between academic knowledge, technical skill set in line with industry needs, high moral values and sensitivity to the environment and the nation. Therefore apart from academics, co-curricular activities, sports and cultural development will form an important part of the life at HIET Institute from the very beginning. With this, I invite you to visit HIET Institute to experience the difference.

I wish you all for the New Year 2017.

Prof. K. Sundararajan, Principal

From the Editor-in-Chief Desk

Welcome to the Vol. No. 3 and issue no. 3 of the 'HIETalk' Newsletter! This issue brought to you the latest newsletter since I take up the editor's role.

It is my pleasure to write as the editor-in- chief of the upcoming issue of the College Newsletter. I am thankful to the management for giving me an opportunity to rejuvenate and establish the newsletter series. I am also thankful to the members of the Editorial Board* who took up the challenge of making the newsletter. These timings are kept to accommodate the information influx and will be flexible in nature. The newsletter is launched with the objective of dissemination and compilation of information related to the college. This introduction of the newsletter will give an opportunity to the faculty, students and college to craft and showcase their knowledge and skills.

In closing, I would like to thank several people whose help and support have made me as editor in chief of the Newsletter very rewarding. First, I'd like to thank Dr. Anand Jacob Verghese, Director and CEO who gave the permission and idea to us for producing the newsletter and too provide us to produce every issue without any hurdles. Without his efforts, this newsletter would never have become a reality.

Thanks are also due to all the members, whose assistance with the layout and production of the news letter has been tremendously important and valuable.

Suggestions are most welcomed.

Dr. K. Nazeer Badhusha, Editor-in-Chief

From the Editor's Desk

At the outset, I thank to the Management and Principal and Specially the Newsletter Committee Members for their efforts in bringing out the News letter. Newsletter is an amalgamation of all the events held in the department and it plays an instrumental role in providing a greater exposure of the achievements accomplished by the students and the faculty. We wish all the very best in your endeavors.

My appeal to my dear students is to attend all classes and read text books regularly take part in technical paper presentations and seminars and undergo training in various skills sets, so that, we will not face difficult times in their professional career since, we will be mostly on standalone mode. In this respect, I humbly request the parents and guardians to show more interest in their ward's day to day activities and overall performance. Parents are also requested to attend without fail the parents association meetings held by the colleges.

I wish all success in your life.

Mr.Upanga Ujjal Kalita, III MECH
Editor – Student Chapter
