

HIETalk

It is necessary to strike a balance between driving and rewarding team results and team performance because only focusing on “Team achievements and rewards/ recognition” can boost up the team work and collaboration. HIET has received the award “Best Skill Development Leadership Excellence Award 2017-18” from World Education Congress, Mumbai on 23 Nov. 2017-18. The award was considered towards our institute infra structure facilities, MOU's between various other company's / institute / organization etc. and also to conduct various skill development courses other than diploma in the campus.

Jan 2018 Issue 04 Volume 04

Welcome to the HIET College of Engineering Technology, Chennai. For more than four decades, HIET has served as comprehensive institution of technical education. We are advancing institute's tradition of excellence in Engineering and Technology Education through high quality programs in teaching, on-site industry executive training and service. We continue to rank among the nation's best intensive industry interactive Engineering school.

Our campus is set in a beautiful landscape with a spectacular view of Chennai- a living environment that encourages interaction and camaraderie. Our distinguished institute, with extensive ties to leading engineering community, is able to bring the best engineers into our diploma engineering level programs.

Our primary goal is to become one of the most prominent and excellent educational Institute in Chennai region. We are fortunate to have a talented, highly committed teaching and support staff here to ensure the learning environment of our students is the best it can be. Our faculties are accomplished practitioners who are actively engaged in the academic excellence and innovative ideas of the modern world. Our students are innovators, engineers, managers, great scientists, entrepreneurs, and aspiring leaders – from every age group and are located at every corner of the country. Our unique teaching and learning process with a proper blend of theory and practice crosses the boundaries of nations towards industry-readiness and global excellence.

We seek to prepare our young students with the very best preparation for life at HIET. We also seek to instill in our students a passion for learning that will bring the knowledge and understanding required for a positive contribution to the community.

HIET is a vibrant learning community that encourages a three-way partnership between students, parents and the college. The strength of this partnership is reflected in the success of our students. I would be pleased to welcome you to HIET at any time. We would be delighted to be involved in the education of your child and to foster in her/him the value based education.

Thank you for considering us as the engineering school for your child.

Welcome to HIET, Chennai situated in the heart of the city. Our institute's purpose is to educate the young mind of local students to take their productive place as leaders in the global community by offering our learners a comprehensive technical education programme. We are taking much more care towards the student community where students' are encouraged to coexist. HIET offers technical education programmes aiming to provide a challenging academic environment emphasising learning, as well as social and personal growth.

As the Principal of HIET, I am very much delighted that the ethics of our institute will include the importance of trust, respect, innovation and a sense of the student community. I know that the development of the institute over the past fifty years has been significant. The future will build on these firm foundations focusing on the quality of institute's life, especially for the benefit of our learners. HIET always have been engaged in high-quality teachers appointed here. The curriculum will continue to be regularly reviewed to the needs of our learners. In addition, there is a well-established laboratories and workshops will allow learners and teachers to fully exploit the very best of modern learning opportunities.

The curriculum emphasises the acquisition of knowledge, understanding, critical thinking, and problem-solving abilities for all students attending our institute. We believe that every learner is unique and special and they all have the ability to learn. We believe it is our responsibility as educators to nurture and develop every learner to prepare them for life. Learners are continually encouraged to appreciate our diverse community and to develop a concern and active respect for the environment.

At HIET, the educational community strives for excellence by preparing students for learning and assisting them to become fruitful lifelong learners, as well as helping them to be self-directed, realistic, and responsible decision makers when solving problems that they will encounter in our multicultural, ever-changing world. Ultimately, each learner will gain from their life at HIET according to the effort they apply.

Furthermore, HIET has also awarded the prestigious ASSCOHAM 2014-15, 2015-16 and 2016-2017 status in recognition of its 'innovation, leadership and educational experience'. It is heartening to receive such respected external validation of the world-class education provided at HIET and the tireless and expert work of itself.

We strongly believe in the importance of teachers, parents, and administrators collaborating and communicating openly and frequently. We continually improve the quality of tools of communication, including giving our parents access to an interactive website where they can retrieve pertinent information about their children's academic achievement. You are encouraged to regularly check our institute and read about our exciting academic and co-curricular activities.

We look forward to serving you and your children over the coming years. Interested parents are encouraged to contact me and to ask any questions they may have regarding our institute and the programmes we offer.

Prof. K. Sundararajan
Principal

From the Editor-in-Chief Desk

It gives us immense joy and satisfaction to finally reproduce recent edition of our very own college newsletter "HIETalk". We have tried to churn out creativity from this mess of science. A lot of effort has gone into the making of this issue. We hope you enjoy reading this newsletter. The best thing about this issue is that it represents the creative side of HIET students to a fair -something that we think we all need to reconnect with. We tend to lose track of all the other simpler things that we are capable of, things that we could have been proud of, that can bring one satisfaction. It is note out of place to mention here that the Director and CEO has given constant support to bring out this newsletter, without which it is unable to produce the same in time.

We hope you enjoy reading this issue as much as we have enjoyed making it.

Any suggestions would be most welcome.

Dr. K. Nazeer Badhusha
Editor-in-Chief

From the Student Editor's Desk

The Editorial Board of the Institute proudly presents its unique creation in the form of the newsletter 'HIETalk' which serves as a platform to highlight the literary and artistic segment of the HIET family. Besides, the Editorial Board also brings out this newsletter being formed a bridge between flowing thoughts and artistic magnification. The newsletter also highlights the educational, cultural and sports activities of the Institute.
